

Geneva Daly

Social and economic justice are important values to me and ones that I will uphold. I personally contribute to social and economic justice by having an involvement in local and national politics. In the fall of 2016, I had the opportunity to work as a Congressional Intern. Some of my responsibilities included: constituent casework, conducting research for staff members, assisting staff at community or public events, writing letters to constituents, attending meetings, and answering constituent calls.

In the 2016 election, I volunteered during the primaries and general for a Democratic candidate for President, where I phone banked and canvassed. I was inspired by the 2016 election to get even more involved in politics and advocating for progressive policies that make a positive effect on social and economic justice. I have been a member of many local political clubs. In 2017, I was a founding member of a local chartered Democratic club. Where I served as the Chairperson of Records.

As an educator, I know that children are our future. We need to leave the world a better place for them. I hope to represent my community by being your Assembly Delegate for District 42.
