

Judy Rice

I am a current ADEM for AD 42. I have lived in Hemet for the last four years. In the last several election cycles, I helped with local campaigns and with GOTV as well as manning the club headquarters in Hemet, helping people check their registration status and getting them to the polls or the ROV to vote in person. I am also a member of Progressive Democrats of America (PDA) where I participate in their monthly letter drop campaigns and on their Healthcare issues team. I also worked with them when I lived in the OC.

I am a retired nurse (LVN) so Healthcare has been my focus for much of my life. As a nurse, my patient is my focus--to understand both the present health status and the backstory affecting it. The safety of my patient is paramount, requiring constant reevaluation not to blindly follow orders, to help my patient heal.
